

Colloquial Cluster Corpus *a precious*

Gollum: We wants it, we needs it. Must have the precious.
They stole it from us. Sneaky little copyrighterses.
Wicked, tricky, false!

Sméagol: No. Not Money-maker.

Gollum: Yes, precious. False. They will cheat you, hurt you, lie!

Sméagol: Money-maker is my friend.

Gollum: You don't have any friends. Nobody likes you!

Sméagol: Not listening. I'm not listening.

Gollum: You're a liar and a thief.

/A la 'The Lord of the Rings: The Two Towers'/

— **SELL ON** colloq. (orig. US) make enthusiastic about, convince of the worth of, (freq. in **BE SOLD ON**). /SOED/

— To persuade (another) to recognize the worth or desirability of something:
They sold me on the idea. /American Heritage Dictionary/

So much here to lean on
So much loneliness to lose
And when we stumble
We'll have each other
So all we have to do is choose

We're gonna see

That we can feel

We're gonna fly

This time love can be real

As we look into the future

And we celebrate the past

It's more than now, it's forever

/FREEMASONS - I Feel Like LYRICS/

(Hallo) Spaceboy, you're sleepy now

Your silhouette (is) so stationary

You're released but your **custody calls**

/David Bowie/

Lost your summer day
stood and watched it fade
you gave it up
now you're out of luck and you've had enough of everything you know
feel like breaking down feel like running out on everything you've learned
you're too tired to sleep you **get in too** deep and
yeah you got burned
but, you're not alone now
you're not alone now ...
you'll get back in time it's alright
got to hang on in through the thick of it, yeah you'll survive
got to take your doubts
ohh just break them out to feel the sunshine
when it gets too cold when the world's on hold you've got to give it time
or your letting go 'cos it feels like you won't come out the other side
/Freemasons feat. Julie Thompson - You're Not Alone Now LYRICS/

Guessing what passes Sméagol's split-mind in a given moment is as schizophrenically hard (ha-ha) as finding the exact meaning of a given idiom.

HERITAGE defines 'schizophrenia' as:

1. Any of a group of psychotic disorders usually characterized by withdrawal from reality, illogical patterns of thinking, delusions, and hallucinations, and accompanied in varying degrees by other emotional, behavioral, or intellectual disturbances.
 2. A situation or condition that results from **the coexistence of disparate or antagonistic qualities, identities, or activities**.
- Caramba, that's an interesting burden for sure. Who else noted the striking similarity between 'idiomatic', 'idiotic' and 'schizophrenic'!
